INTRODUCTORY.

In presenting this the twenty-fourth volume of the Indianapolis City Directory to the public, we beg to return thanks to our friends for their patronage. We have taken the greatest possible care in preparing this volume and we believe it will be found more correct than any heretofore published. To our patrons we would say we have established a library of Directories of all the principal cities in the United States, which we take pleasure in placing at their disposal for reference, without charge. This year we feel doubly grateful to a public who have materially expressed their appreciation of our efforts under such adverse circumstances as the present general depression of the business interests of the city.

RATES OF POSTAGE ON FISRT-CLASS MATTER.

On letters, sealed packages, mail-matter wholly or partly in writing, except book manuscript and corrected proofs passing between authors and publishers, and except local or drop letters, or United States postal cards; all printed matter so marked as to convey any other or further information than is conveyed by the original print, except the correction of mere typographical errors; all matters otherwise chargeable with letter postage, but which is so wrapped or secured that it can not be conveniently examined by postmasters without destroying the wrapper or envelope; all packages containing matter not in itself chargeable with letter postage, but in which is enclosed or concealed any letter, memorandum, or other thing chargeable with letter postage, or upon which is any writing or memorandum; all matter to which no specific rate of postage is assigned; and manuscript for publication in newspapers, magazines, or periodicals, three cents for each half ounce or fraction thereof.

On local or drop letters, at offices where free delivery by carriers is established, two cents for each half ounce or fraction thereof.

RATES OF POSTAGE ON SECOND-CLASS MATTER.

Mailable matter of this class embraces all newspapers, magazines and periodicals, exclusively in print, and regularly issued at stated periods from a known office of publication, without addition by writing, mark, or sign, and addressed to regular subscribers, which shall be divided into two classes, and fixes the postage on each as follows:

1. On all newspapers and periodical publications, addressed and mailed as above prescribed, and issued weekly or oftener, two cents a pound or fraction thereof.

2. On all newspapers and periodical publications, addressed and mailed as above prescribed, and issued *less* frequently than once a week, three cents a pound or fraction thereof.

A regular subscriber is a person who has actually paid, or undertaken to pay, a subscription price for a newspaper, magazine, or other periodical, or for whom such payment has been made, or undertaken to be made, by some other person. But, in the latter case, such payment must have been made, or undertaken with the previous consent, or at the previous request of the person to whom such newspaper, magazine, or periodical is sent. A person to whom any such publication is sent, without his consent or request, is not a "regular subscriber," within the meaning of the law, and if there be no evidence of prepayment on the package, double transit rates of postage must be rated up and collected on delivery.

THIRD-CLASS MATTER.

The following articles are mailable at the rate of one cent for every two ounces or fractional part thereof.

Pamphlets, occasional publications, transient newspapers, magazines, books, periodicals, hand-bills, posters, sheet music (printed), prospectuses, maps, proof sheets, regular publications designed primarily for advertising purposes or free circulation, at nominal rates, and corrected proof sheets. All matter of the third-class, not enumerated above, is one cent for each ounce or fraction thereof.

POSTAL CARDS.

The object of the postal card is to facilitate letter correspondence, and provide for the transmission through the mails, at a reduced rate of postage, of short communications, either printed or written in pencil or ink. They may, therefore, be used for orders, invitations, notices, receipts, acknowledgments, price-lists, and other requirements of business and social life; and the matter desired to be conveyed may be either in writing or in print, or partially in both.

In using postal cards, be careful not to write or have anything printed on the side to be used for the address, except the address; also be careful not to paste, gum or attach anything to them. They are unmailable as postal cards when these suggestions are disregarded.

THE FOLLOWING ARTICLES ARE UNMAILABLE.

Packages containing liquids, poisons, glass, explosive chemicals, live animals, sharp pointed instruments, sugar, or any other matter liable to deface or destroy the contents of the mail, or injure the person of any one connected with the service. All letters upon the envelope of which, or postal card upon which obscene, scurrilous, or abusive epithets have been written or printed, or disloyal devices printed or engraved, and letters or circulars concerning illegal lotteries, so called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public. Also, all obscene, lewd, or lacivious books, pamphlets, pictures, papers, prints, or other publications of an indecent character.

FORWARDING LETTERS.

Letters may be forwarded without prepayment of postage, if forwarded without being taken from the Postoffice, but if delivered to an authorized person (such as one to whose care they are directed), or hotel to whose care they are sent, having once been beyond the control of the Postoffice Department, they are chargable with postage on forwarding. Such redirected letters are daily dropped in the letter boxes, and are, under instructions, forwarded to the Dead Letter Office.

LETTERS RETURNED TO WRITERS.

All letters unclaimed, upon which are indorsed the names and addresses of the writers, will be returned whether a specific *request* for such return is indorsed or not —provided the original postage has been prepaid according to law.

MONEY ORDERS.

Are issued on all points in the United States at a trifling cost—$15 or under, 10 cents.

On Canada and the Provinces, $10 or under, 20 cents.

On all points in Great Britain and Ireland, $10 or under, 25 cents.

On all points in Germany, $5 or under, 15 cents.

On all points in Switzerland, $10 or under, 25 cents, and through Switzerland on France, Belgium, Italy and the Netherlands.

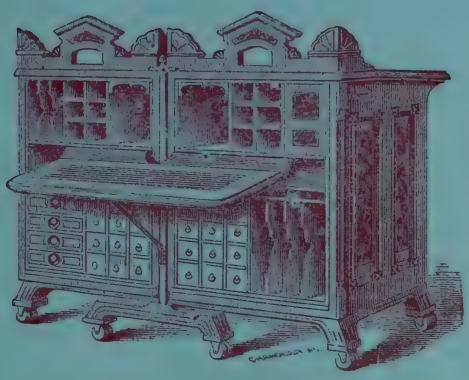
Moore's Patent

Combination Cabinet.



STYLE A—DOUBLE DESK.

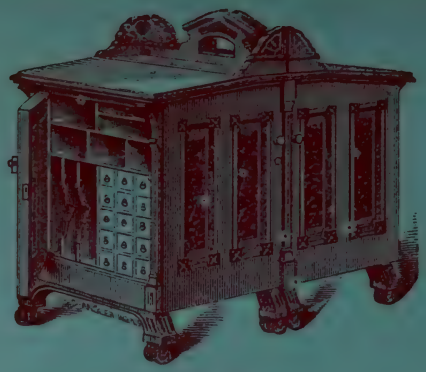
JOSEPH A. MOORE,

DESIGNER AND MANUFACTURER,

D. D. VAN WIE, General Manager,

82 East Market Street,

INDIANAPOLIS.



STYLE B.

DESCRIPTION.

Position A represents the Cabinet open, forming a complete sitting and standing desk, permitting a change of position when desired—a feature that will be commended and appreciated.

B presents it closed, converted into two complete standing desks, entirely independent of each other.

It is composed of two main sections, each of which is supported by four double-acting improved castors, and connected together by a solid wrought-iron bar-hinge in the center, which *prevents the sagging or involuntary motion* of any of its parts, and makes the entire structure thoroughly *solid* and *substantial.*

The desk can be instantly closed at any stage of business without removing any articles or papers from the table—a most important feature.

Its height is sufficient to secure all needed facilities without obstructing the view of the person using it

Its PRACTICAL, INGENIOUS, CONVENIENT and SUPERIOR arrangement throughout will save its possessor much mental perplexity and a vast amount of unnecessary labor, time and money.

It is made in different sizes, styles and grades, single or double, of either walnut, oak or mahogany exterior, carved, veneered, ornamented or plain, as desired.

The interior finish is more varied, comprising the following woods, viz: pine, linn, poplar, walnut, cherry, maple, mahogany, cedar, birch, satin and holly, French veneers or marquetry.

The hardware is of the best quality, and especially designed, in keeping and harmony with the materials and finish employed.

It is constructed by thoroughly competent and experienced mechanics, from the most carefully selected materials, and *warranted in every particular.*

Cased to go to any part of the world in safety.

It will answer the purposes of a life-time.

From this explanation it will be seen that the arrangement is such as to overcome the numerous objections found in desks, and to secure the essential advantages; that it can be used by one or more persons at the same time, in any position, opened or closed, and is therefore better adapted to every class of business *than any other desk in the world,* and any one desiring A BUSINESS DESK in its broadest signfication will act with wisdom in at least EXAMINING IT before investing

These are not stereotyped phrases, stated for effect, but every statement will be more than verified by its inspection and use.

GENTS' FURNISHING GOODS, BEST AND LATEST STYLES, George H. Heitkam, 13 West Washington St.

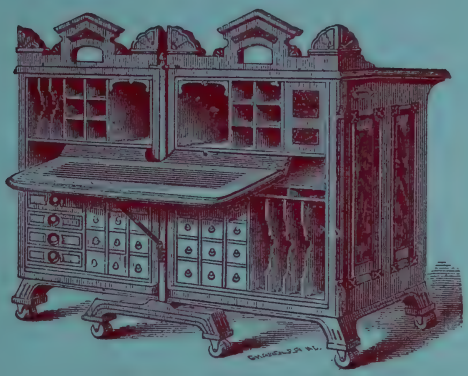
Moore's Patent

Combination Cabinet.



STYLE A—DOUBLE DESK.

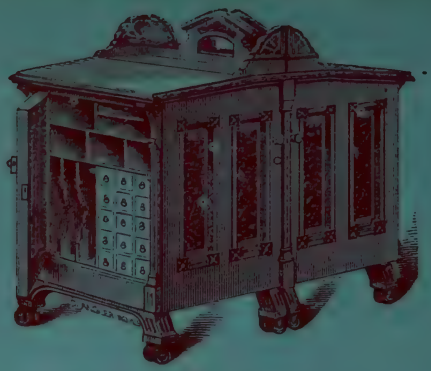
JOSEPH A. MOORE,

DESIGNER AND MANUFACTURER,

D. D. VAN WIE, General Manager,

82 East Market Street,

INDIANAPOLIS.



STYLE B.

DESCRIPTION.

Position A represents the Cabinet open, forming a complete sitting and standing desk, permitting a change of position when desired—a feature that will be commended and appreciated.

B presents it closed, converted into two complete standing desks, entirely independent of each other.

It is composed of two main sections, each of which is supported by four double-acting improved castors, and connected together by a solid wrought iron bar-hinge in the center, which *prevents the sagging or involuntary motion* of any of its parts, and makes the entire structure thoroughly *solid* and *substantial.*

The desk can be instantly closed at any stage of business without removing any articles or papers from the table—a most important feature.

Its height is sufficient to secure all needed facilities without obstructing the view of the person using it.

Its PRACTICAL, INGENIOUS, CONVENIENT and SUPERIOR arrangement throughout will save its possessor much mental perplexity and a vast amount of unnecessary labor, time and money.

It is made in different sizes, styles and grades, single or double, of either walnut, oak or mahogany exterior, carved, veneered, ornamented or plain, as desired.

The interior finish is more varied, comprising the following woods, viz: pine, linn, poplar, walnut, cherry, maple, mahogany, cedar, birch, satin and holly, French veneers or marquetry. .

The hardware is of the best quality, and especially designed, in keeping and harmony with the materials and finish employed.

It is constructed by thoroughly competent and experienced mechanics, from the most carefully selected materials, and *warranted in every particular.*

Cased to go to any part of the world in safety.

It will answer the purposes of a life-time.

From this explanation it will be seen that the arrangement is such as to overcome the numerous objections found in desks, and to secure the essential advantages; that it can be used by one or more persons at the same time, in any position, opened or closed, and is therefore better adapted to every class of business *than any other desk in the world*, and any one desiring A BUSINESS DESK in its broadest signfication will act with wisdom in at least EXAMINING IT before investing

These are not stereotyped phrases, stated for effect, but every statement will be more than verified by its inspection and use.
